Your Primary Vocation Family spiritual formation- that is, the creation and transmission of spiritual heritage- is the primary vocation of parents. Parents have a unique vocation to witness the love of God to each other, to their children, and to the world. Through the example of their lives and teachings, parents provide a family environment that leads children into relationship with Christ and harmony with others. The "Declaration on Christian Education" issued at the Second Vatican Council addresses strongly the crucial vocation of parents: The role of parents in education is of such importance that it is almost impossible to provide an adequate substitute. It is therefore the duty of parents to create a family atmosphere inspired by love and devotion to God and humanity which will provide an integrated, personal and social education of their children."
